ED Triage Notes by Megan R, RN at 9/5/2026 8:46 PM

Pt presents to ED with c/o urinary retention x 2 days that has gotten increasingly worse. No other urinary symptoms. Pt states her doctor sent her here for "fluids". Endorses n/v/d x 3 days. Pt has excessively dry mouth and appears lethargic and pale with slow speech. Unsure of baseline speech pattern. A&Ox4, GCS 15.
